GOOD VALUES OBTAINED

FROM NEVADA BUNKER HILL

Lead carbonate ore carrying excep-
tional values has been encountered
in the main tunnel of the Nevada
Bunker Hill Mining company at Bul-
lion, according to Frederick Davis,
secretary and manager of the com-
pany, who spent yesterday inspecting
the property and returned to Elko
last evening. Mr. Davis was enthu-
siastic over the recent developments
and is firm in his belief that before
the tunnel is completed additional
valuable discoveries will be made. He
departed last evening for the coast,
to be absent for a week or ten days,
to attend to company business nec-
essitating his presence in San Fran-
cisco.

"The discovery was made in the
main working tunnel, which is now
in 2028 feet, and in which the com-
pany awarded a contract for 100 feet
on the first of September," declared
Mr. Davis last evening, when speak-
ing to a representative of the Free
Press. "An iron seam that has been
running with the course of the tun-
nel for the last 50 feet has changed
to lead carbonate and a sample from
across the entire face of this seam,
which is about eight inches in width,
assayed 30 per cent lead.

"Messrs. Roberts and Honnold, who
have the contract for driving the tun-
nel the specified 100 feet, expect the
seam to lead them to one of the
large ore bodies already proven to
exist in the estate. The encountering
of the ore body is believed to be but

a matter of days. During the past
operations the ore bodies were usu-
ally discovered by following seams,
and it was with this in view that the
tunnel contract was awarded and the
work pushed ahead vigorously."

Davis also stated that active opera-
tions are being conducted by leasers
on the Bunker Hill property. Moe &
Dougherty of San Francisco, who are
interested in the Bullion Nevada
Mining company, which adjoins the
Nevada Bunker Hill to the north,
have bought a half interest in the
Kerr & Peterson lease on the Key
claim of the Bunker Hill property.
Mr. Dougherty stated that on Mon-
day the ore body exposed on this
lease measured 14 feet across and
that five feet of it will assay at least
\$200 to the ton. It is expected that
the entire ledge can be shipped with-
out sorting and that a good profit
can be obtained. It is contemplated
to ship the ore to the Salt Lake val-
ley smelters.

Dougherty & Moe have contracted
for a wire aerial tramway to convey
the ore from the lease to the Elko
dump, where it can be loaded on
wagons for transportation to the rail-
road with but little trouble and ex-
pense. The tram will be between
700 and 800 feet in length. An order
has also been placed with J. A. Mc-
Bride of the Elko Lumber company
for two camp buildings to be erected
on the lease for the accommodation
of the men employed this winter. The
owners of the lease intend to rush
the work continuously during the life
of their leasehold and now have ten
men employed.

The greater number of stockholders
of the Nevada Bunker Hill company
are Elko residents and the news of
the latest discovery has been joyous-
ly received in this community.—Elko
Free Press.

MIDDLEWEIGHT

TO MAKE LAST

APPEARANCE

ROY TAYLOR OF VIRGINIA CITY

CONSENTS TO APPEAR IN

TONOPAH.

Matchmaker Jack Dougherty of the
Tonopah Athletic club received a
wire last night from Roy Taylor of
Virginia City to match him to ap-
pear in Tonopah for his last fight in
Nevada, as he fights Otto Berg of
San Francisco October 21 in San
Francisco, twenty rounds for Jim
Coffroth.

As Taylor was developed from a
miner on the Comstock to one of
the best middleweights in the world,
and the boys of Nevada have given
him his start, he wishes to fight in
southern Nevada, so as to give all of
Nevada a chance to see him, as many
have not had the opportunity in
Reno, and nobody will ever afterward
say that he has not done all he
could to show his appreciation.

He can come down here early next
month, as he fights Frank Mantell in
Reno Friday, the 26th, and Otto Berg
October 21. The wire reads:

"Reno, Nev., Sept. 23, 1913.—Mr.
Jack Dougherty, Matchmaker Tonopah
Athletic Club: Will box any middle-
weight for farewell bout in Tonopah
on 13th of October preferred. Sign
articles for me. Will send out in
morning. Am in fine shape and
ought to win easily over Mantell Fri-
day. Yours from Nevada.

"ROY TAYLOR."
Matchmaker Dougherty has articles
framed and is only waiting for Gor-
man of San Francisco to post for-
feit and sign and get the next mid-
dleweight champion of the world, a
true Sagebrusher, to show his fare-
well here.

CONSOLIDATED AUTO COMPANY.

UTAH PEOPLE IN

THE CASH BOY

REORGANIZATION

CASH BOY AND VICTOR GROUPS

JOINED WITH STRONG PEOPLES IN CONTROL.

When the shareholders of the Tono-
pah Leasing and Mining company, at
their special meeting in this city yes-
terday, ratified the proposition of the
board of directors to dispose of their
interests in the company owning the
ground on which the lease was held,
they set into motion a deal whereby
the Ross and Kirchen interests of
Utah and Nevada take over some of
the best territory in the Tonopah dis-
trict, making it possible to round out
a large group from which much is
expected. The proposition to dispose
of the leasing stock was passed, and
the leasing stock is to be exchanged
for stock in a new company now un-
der process of organization.

The new company is to be known
as the Tonopah Cash Boy Consoli-
dated, its capitalization to be \$2,000,
000, divided into 2,000,000 shares of
stock, par value \$1. Of this capitali-
zation, 500,000 shares are to be re-
tained in the treasury; 355,000 shares
go to the Tonopah Cash Boy com-
pany for its property; 255,000 shares
go to the Tonopah Victor company
for its property, and 200,000 shares
go to the Tonopah Leasing and Min-
ing company for its relinquishment
of the two-year lease held by it on
the Cash Boy territory. The leasing
company, which is composed of Salt
Lake capitalists, will turn in its pre-
sent stock, therefore, receiving one
share of the new for each four
shares of the old.

A. S. Ross of Salt Lake is pres-
ident of the new organization; Mau-
rice M. Johnson is vice president and
John G. Kirchen, Harry S. Knight and
E. H. Mend complete the board of
directors, the latter being secretary
of the company. The new company
starts out with thirty acres of pa-
tented ground located in the heart of
the Tonopah producing zone, on
which the deepest shaft is 1200 feet
in depth. The plan is to continue
this shaft until the Tonopah Merger
vein is encountered, which is esti-
mated to be practically within the

grasp of the management, while the
Tonopah Extension vein is another
source of ore which is making for
the Cash Boy territory and which
will be sought at depth. The prop-
erty is splendidly equipped and the
financial end of the new company
has been provided for in a substan-
tial way.

Three shafts are at work now in
this property, and Secretary Mend
states that the stock is to be listed
on the New York curb and on the
San Francisco exchange.—Salt Lake
Tribune.

DIVIDEND NOTICE

At a regular meeting of the Board
of Directors of the Nevada Tele-
phone-Telegraph Company held at
their office September 20th, 1913, a
regular quarterly dividend of 2½
cents per share, to be known as Divi-
dend No. 4, and an extra dividend of
2½ cents per share, to be known as
Dividend "No. 5 Extra," was declared
to stockholders of record October 1st,
1913, payable October 15th, 1913.

F. P. OKE, Secretary.

REMINGTON-UMC
ARROW SHOT SHELLS

SPEED—SPEED—and again, SPEED

YOUR object in shooting is to get your bird
with the center of your lead. Of course!
Then shoot these Steel Lined Speed Shells.

They are the fastest shells in the market. Their
speed is demonstrated beyond question by the one
test in all ballistic matters—the Electric Chronograph.

Then, too, there is the experience of thousands of seasoned
gunners who have been shooting the Remington-Union Steel
Lined Shells ever since they came out.

The steel lining is the thing. It grips the powder—holds it in compression
—puts all the drive of the explosion behind the shot.

Your lead travels quicker—you shorten up your lead. You cut down
the guess work on lead and angles—you get more birds.

Your dealer carries these speed shells. Get them. Use them. Find
the Red Ball mark on every box of shells and metallics you buy.
